-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Arguments

Applicant's arguments filed December 7, 2005 have been fully considered but they are not persuasive. Examiner reminds applicant that the rejection over the prior art of Datta was a 102(e) rejection that cannot be overcome by a statement of common ownership at the time of filing of the instant application under 35 U.S.C. 103 (c). A rejection under 35 U.S.C. 102(e) can be overcome only by an affidavit under either of sections 37 C.F.R. 1.131 or 1.132 stating that the claim invention predates the prior art reference(s) or that the prior art is not an invention by "another" as defined in 35 U.S.C.

Claim Rejections - 35 USC § 102

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1-4 are rejected under 35 U.S.C. 102(e) as being anticipated by Datta et al (U.S. Patent Application Publication No. 2004/0225271).

With respect to **Claim 1**: Datta teaches diaper 10 having a front panel 12, back panel 30 and crotch region 64 connecting front panel 12 and back panel 30. (¶¶ 0016,0030) Diaper 10 also has waist opening 66 and leg openings 68 and 70. (¶ 0032) Side panels are formed by the engagement of tabs 38 and 40 with attachment member 24. (Fig. 2) (¶ 0031) Datta also teaches absorbent assembly 50 disposed in crotch region 64.

(¶ 0024) Datta teaches frangible portions 72 and 74 and 74 of tabs 38 and 40 that extend the width of the attachment member 24 from waist opening 66 to corresponding leg opening 68 or 70. (¶ 0034)

With respect to **Claims 2-4**: Datta teaches that frangible sections 72 and 74 are arcuate perforation lines (¶¶ 0033,0034)

Allowable Subject Matter

Claims 5-9 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. A thorough search of the prior art of record has not yielded a reference or combination of references that teach or fairly suggest a disposable absorbent article having at least one removable portion joined to the side panel by a tear line that extends from a front region adjacent a leg opening and extends to a back region of said article terminating adjacent the same leg opening.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37

CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
